NEW ZEALAND WINEGROWERS

STATISTICAL ANNUAL 2009

FOREWORD

New Zealand Winegrowers aims to serve grape growers and winemakers by collecting, analysing, and disseminating key data about the industry.

This review presents the major production indicators for the New Zealand grape and wine industry, summarising various data collected by New Zealand Winegrowers.

The information is intended to assist decision making and planning for industry participants, and those associated with the New Zealand grape and wine industry. We trust that the information contained in this document will be useful to all stakeholders.

The Vineyard Survey for 2009 was conducted by Black Box Spatial.

Philip Gregan
CEO New Zealand Winegrowers

SECTION THREE: GRAPE PRICE DATA

All data presented have been sourced from the levy data of the New Zealand Grape Growers Council. The data include initial and top-up payments as at 14 September 2009. This data includes 99% of all grapes produced by growers according to the Vintage Survey 2009. It is known that some growers have not received full and final payment for their grapes, but it is not possible to quantify this. New Zealand Winegrowers will provide an update of grape prices in February 2010, to report on any further payments relating to grapes from vintage 2009.
